DECISION

Perry Massey, et al.
Box 3040
Fallbrook, CA 92020

See Exhibit A

Mining Claim(s) Declared Abandoned and Void By Operation of Law
Your unpatented mining claim(s) identified above is/are deemed abandoned and void.

Under Section 314 of the Federal Land Policy and Management Act (FLPMA) of 1976, and Federal Regulation 43 CFR 3833.2, the owner of a mining claim must file evidence of assessment work or notice of intention to hold prior to December 31 of each calendar year following the calendar year of location. This requirement is mandatory and failure to comply is deemed conclusively to constitute abandonment and renders the claim void by operation of law. The administrative authority of Sec. 314 of FLPMA was held to be valid and constitutional by the United States Supreme Court, United States vs. Locke, 405 U.S. 7785 (1985).

Notice of intention to hold or affidavit of assessment work performed for the assessment year 1986 was not filed. You have 30 days from the date of receipt of this letter to submit information that documents were timely filed, i.e., documents showing the BLM receiving date stamp for the year in question, or you may appeal this decision. If the information is not received within the specified timeframe, the subject mining claim(s) is/are declared abandoned and void without further notice.

At the end of 30 days this decision will become final and you will have an additional 30 days in which you may appeal to the Interior Board of Land Appeals.

Right of Appeal to this decision is allowed within the provisions on enclosed form 1842-1.
